Liz / Tom –

Per our discussions this afternoon, I am forwarding the latest version of the RTC, which includes all of Scott's (and others) comments. Please use this version as the working copy. Tom will respond to all comments associated with the Region 3 section (Ruth Knapp) and the Region 5 section (John Summerhays). Liz will respond to all comments in the remaining sections of the RTC and compile the final RTC (including the Region 3 and Region 5 portions).

Region 3 is currently pulling text from their TSD and developing Qs & As to incorporate into the RTC. They expect to forward their Qs & As to Tom NLT noon on Friday, July 19. Tom will pull this information into a consolidated Region 3 RTC section. Tom will also coordinate with Region 5 to ensure he has the latest text from the Region (particularly for Pekin). Tom will also respond to all other comments in the attached RTC and forward final RTC sections for Region 3 and Region 5 to Liz by noon on Monday, July 22.

I will set up a status meeting for Friday and Monday. Jan Cortelyou expects signature on the SO2D package on Tuesday, July 23, so we should shoot to complete the RTC on Monday, July 22 which would include any needed circle-backs with the Regions, OGC or Scott.

Beth

See attached with focus on material after Region 5 (i.e. starting on page 28). I also made a couple changes to the text prior to page 28 in the 2 or 3 places where we say in our response "EPA appreciates" – I changed it to "EPA acknowledges".

Only one of my comments or edits after page 28 might require further consultation with others. Comment 45 might require consult with Region 8, but you may also be able to figure out on your own.
